SUMMARY

Ready to make a global impact from anywhere! I'm a full-stack developer with a passion for crafting innovative web solutions. My proficiency in Ruby on Rails and JavaScript is complemented by my strong soft skills in teamwork, communication, and problem-solving. I thrive in dynamic teams, where my excellent collaboration fosters creativity, and my effective communication ensures everyone is on the same page, I manage a team of 5+ developers to build a law practice ERP on budget and on time in a startup organization.

I'm now eager to leverage my technical prowess and these valuable soft skills as a Junior Full Stack Developer or Front-End Developer to create user-centric, high-impact web experiences."

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3
Back-End: Ruby, Ruby-on-Rails, Node.js, PostgreSQL, MySQL, SQLite, MongoDB
Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, Jest, RSpec, Capybara TDD, Chrome Dev Tools, OOP
Professional: Remote Pair-Programming, Teamwork, Mentoring, Attention to detail, Excellent communication skills, Eternal student.

EXPERIENCE

MICROVERSE (Remote Coding Bootcamp)   Remote
Full Stack Web Developer   09/2022 – 09/2023

- Mentored junior web developers, conducting 20+ code reviews with a focus on improving code quality and adherence to best practices.
- Collaborated with cross-cultural teams from different countries and regions, resulting in the successful completion of 4 web projects, exceeding project specifications.
- Maintained a stellar attendance record with over 98% attendance at meetings, demonstrating dedication and punctuality while playing key roles in project leadership.
- As a team member, actively contributed to the development of [EasyClinic](#), a full-stack doctor booking application, enhancing team communication and productivity, and driving a considerable improvement in project delivery timelines.
- As part of my personal project during the coding bootcamp, I created [XpenseTrackr](#), a comprehensive full-stack expense tracker application. XpenseTrackr allows users to effectively manage their income and expenses. I developed this application using Ruby on Rails and PostgreSQL, following an ERD (Entity-Relationship Diagram) as a blueprint. The project adhered to industry-standard GitFlow for version control and collaboration.

Sprintplex Limited   Lagos, Nigeria
WordPress Developer   11/2018 – Present

- Developed and deployed 15+ client sites, achieving a significant increase in site performance and user engagement.
- Carefully selected and configured essential plugins for client sites, resulting in significant improvements in site functionality and security
- Translated complex client requirements into actionable tasks, streamlining communication between clients and the development team.

Proteux Technologies   Lagos, Nigeria
Co-Founder / CTO   09/2011 – 09/ 2018
- Orchestrated effective communication between management and the development team, resulting in a 30% reduction in project timelines and a significant decrease in rework.
- Spearheaded the end-to-end design and development of the company's flagship product, taking it from the initial MVP stage to a successful market launch. This strategic initiative resulted in a successful market launch and significant revenue in the first year.
- Orchestrated the implementation of Agile methodologies within a collaborative team of six, overseeing and conducting 300+ scrum meetings. This approach ensured the timely delivery of 25+ team deliverables, fostering a culture of efficiency and productivity

EDUCATION

MICROVERSE   09/2022 – 09/ 2023
Remote Full Stack Web Development Program, Full-Time
- Mastered algorithms, data structures, and full-stack development, completing 10+ projects with Ruby, Rails, JavaScript, React, and Redux.
- Successfully conducted 500+ hours of remote pair-programming using GitHub, fostering international collaboration and delivering high-quality code.
- Exhibited excellent verbal and written communication skills, producing 100% accurate project documentation.

UNIVERSITY OF THE PEOPLE   12/2020 – Present
Computer Science,, Full Time(Online)

Obafemi Awolowo University   12/1988 – 06/1991
Metallurgical and Materials Engineering (Not completed)
